

Joining an account as a TA

As a Teaching Assistant (TA), you have the ability to manage assignments and view as well as grade papers submitted within any class section assigned to you.

1. First, you should receive an email from Turnitin prompting you to [set up your instructor account](#). If you haven't, confirm the administrator has added you as an instructor with your correct information.
2. Once your instructor profile is created, the primary instructor on that account may [add you as a TA to a master class section](#). When they do, you will receive another email welcoming you to the class.
3. Now when you log in, you will see class sections assigned to you on your instructor homepage. Get started by [adding an assignment](#) or [enrolling students](#) in the same way any other Turnitin instructor would.
